

EXPRESSION OF INTEREST

World Vision International Lao PDR

Hiring of the Xaybouathong and Nhommalath end line Evaluation Consultant.

At World Vision, we share a big dream for children. We want children to have everything they need to thrive, both physically and emotionally, so they can experience life in all its fullness. We have this dream for all the children in Lao PDR, and to fulfill that, we are working in seven provinces with many local partners in Nutrition, Education, and Child Participation and Protection programs.

The purpose of the Evaluation is to determine the extent to which Technical Program implementation contributed to changing the knowledge and practice of the parents/caregivers, community members and village authorities since the beginning of program implementation and be an evidence base that will enable WVI-L to improve programme effectiveness. The evaluation will focus on measuring relevance, coherence, effectiveness, efficiency, impact, sustainability, GEDSI and Protection. (see Table 1 below). The evaluation will also generate benchmark indicators to support the development of a new log frame for new program and new indicators.

Furthermore, the evaluation will establish the status of additional relevant Laos Country context indicators in alignment with SDGs. The evaluation findings will be compared with baseline findings to determine the effectiveness of WVI-L interventions over the project period and inform the target set for a new strategy to be implemented. Additionally, the evaluation will help to identify priority areas across technical programming, increase WVI-L accountability with its key stakeholders, and use the evidence generated to advocate for change in policy for improved child wellbeing and most child vulnerability

Interested consultants or consultancy firms can download the Terms of Reference with more details from this link: [Hiring Consultant.](#)
